

**Expectations:** Warfare, protests, or conflict in general has been a theme in World History. One of the recent changes and major impacts has been the role of social media and our unfiltered access to news and propaganda. For this assignment, you will need to find evidence of and highlight the impact of social media in either the Ukraine vs. Russia conflict, Israel vs. Hamas conflict, or the Taiwan vs. China situation. An alternative to finding information on Social Media would be reading through [this](#) article and reflecting on the role of media and telling the story of war.
